# New Technologies in Open Forms

---

Presented by Abhishek Koyalkar

# New Features

1. Govern Lite for Mobile
2. Elastic Search
3. Property Summary Card
4. Search on Coolbar
5. Popup Notifications from Tiles

# 1. Govern Lite

- As the name says, **Govern Lite** is the Govern application with reduced features, but more focus on forms.
- The administrator has access to enable the 'mGovern' settings.
- The deployment for 'Lite' is included with the standard Govern Package.
- The application shortcut is created like other Govern Applications.

# Govern Lite

Deploy EZ - v6.1

 Installing the Binary Files  
Select the binary files to install.  
The deployment name is displayed at the top. The connection key is displayed below this. The packages are listed on the left with the currently installed version.  
Select the package. Then, select the version to install from the drop-down list for each package.  
Note: You can install only one version per package.  
Note: The Resource Files, System Files, and Govern Custom Control (CMS) are required for all new deployments.  
Click Next to continue.

Update CMSDEMO Deployment

Connection Key CMSDEMO\_GVTR6S2\_SQL

# Govern Lite - Functionalities

More precisely:

- Only one profile
- NO Ribbon
- NO Dataset TreeView
- There is a Search and a Saved Dataset, but ONLY ONE record can be loaded at a time
- There is a Status Bar that is more like an Information Bar; it mimics the Govern Profile Queries

# Govern Lite - Profile

## Govern Lite - Functionalities

- There is a **Govern IDs** toolbox
- Available options:
  - Layout
  - Zoom +/- on forms and/or forms' header
  - Virtual Keyboard
  - Show/Hide Govern IDs Toolbox
  - Choose the default Search Provider: eSearch or Saved Datasets

# Govern Lite - Functionalities

The screenshot displays the mGovern web application interface. The main window shows a form for property information, including fields for Parcel ID (75065), Tax Map Number (193-101-600-2), Effective Year (2007), and Inactive Year (8888). A sidebar on the left contains various icons for navigation. An 'Options' overlay is visible in the center, providing settings for Layout, Form Zoom (160%), Header Zoom (130%), Virtual Keyboard, Govern IDs, and Data Sources.

## 2. Elastic Search

- An enhanced Search to eventually replace the legacy predefined searches toolbox.
  - **Shortcut:**
  - Quick Search: F3

# Elastic Search

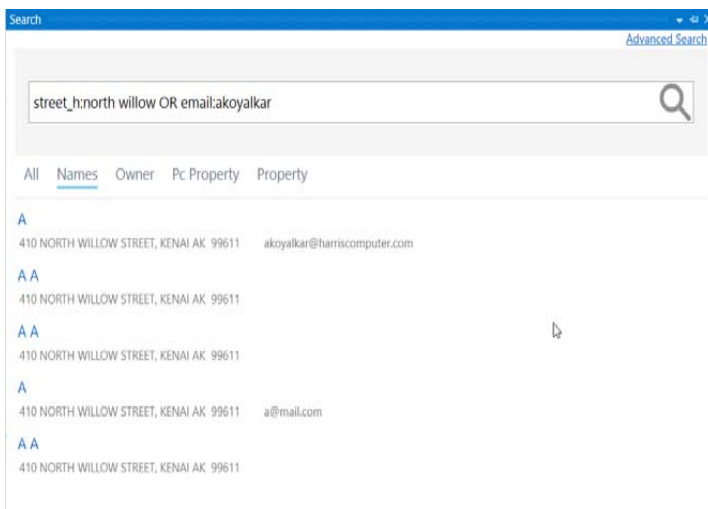

- ‘All’ will use the boost specified to an index in GNA.
- Tag to indicate from which index the Search Result came.

# Elastic Search

Column specific searches can be performed to filter results to that particular column but not to other columns.

## Special Operators:

## 4. “Search” on the Cool Bar

- A new **Search** tile is available on the ribbon.
- This feature is an alternate way to quickly navigate from one parcel to another.

## ‘Search’ on Cool Bar

- To search, enter the P\_ID, Tax Map formatted, or Tax Map unformatted; click **Enter**.
- The system will first search by P\_ID. If an exact match is found, the result will be added to the dataset and the property will be opened.
- If not found, the system will search by Unformatted Tax Map. If an exact match is found, then the matching property record will be added to the dataset and the property will be opened.
- If no matches, “Not found” is displayed.

## 5. Popup Notifications from Tiles

- A user defined popup can be displayed with a warning text.
- This is triggered based upon conditions and when there is a change of Govern IDs.
- Properties:
  - Popup Condition
  - Popup Text
