

# Fields Exclusion

## Overview

By default, when you perform a roll forward or run a batch program that copies data to the following year, all database fields from the following list of tables are copied.

Using the Fields Exclusion form, you can select the fields to exclude from the Copy to Next Year and Roll Forward processes. You can exclude the same of different fields. The lists are independent.

## Version

The Fields Exclusion form is available in Govern OpenForms v6.1 and above.

## Available Tables for Fields Exclusion

### Aircraft Excise Tax

- AC\_ASSESSMENT
- AC\_ASSESSMENT\_DET
- AC\_EXEMPTIONS
- AC\_LEVY\_MASTER
- AC\_LK\_LEVY\_EXEMPT

## Excluding Fields

To access the Fields Exclusion form:

1. Launch GNA.
2. Select **Application Configurations > Fields Exclusion**.

3. Click the **Add** icon  to select a field.  
This adds a row to the grid.
4. Select the table, containing the field, from the drop-down list in the **Table Name** field.
5. Select the field that you want to exclude from the corresponding drop-down in the **Column Name** field
6. Select the **Roll Forward** checkbox to exclude the selected field from the Roll Forward process.

7. Select the **Copy to Next Year** checkbox to exclude the selected field from the batch processes that copy data to the following year.
8. Repeat steps 3 to 7 to add more fields.
9. Click **Save**.

## **Batch Processes**

Batch processes that copy data to the following year include:

- Compute Levies and Exemptions
- Mass Appraisal Values Computation

## **Roll Forward**

The Roll Forward process is launched from the Govern Tax and Mass Appraisal forms.
